

PhotoPeach

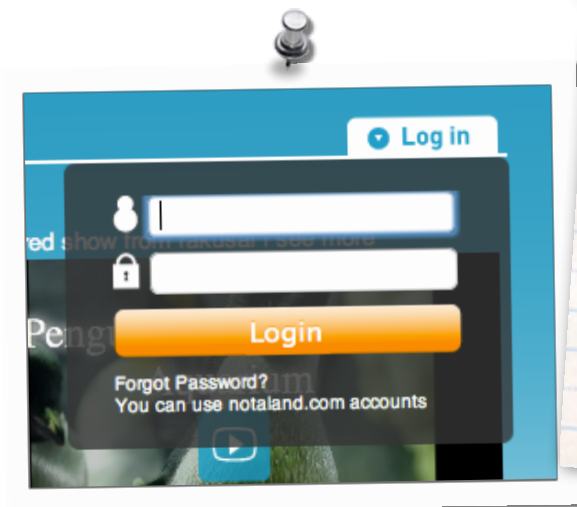

When you go to www.photopeach.com this is the welcome screen that will appear.

- To sign up click on the green "Sign up for Free" button.

Sign Up is simple!

All you need is a username (like a nickname), a working email address, and a password you will remember!

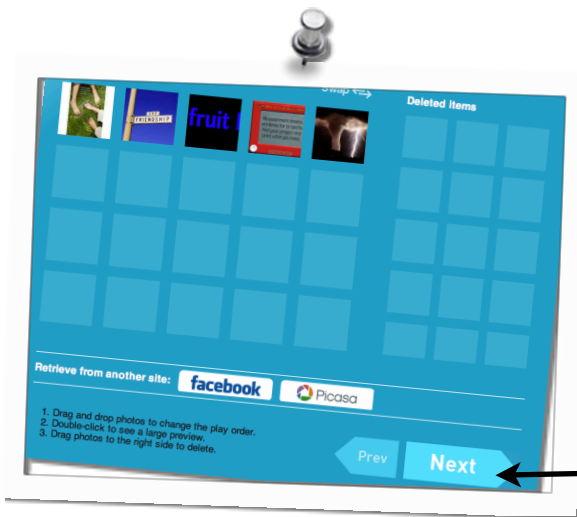

The next time you go to www.photopeach.com you will click on the white Log in button at the top right of the screen. Then a menu will pop down and you put in either your username or email followed by your password.

PhotoPeach cont.

Once you have successfully logged in you will see a page with several options. At the top of the page under Home there is the option to create a new slideshow. You begin by uploading photos from your computer onto PhotoPeach. Click "Upload Photos" to get started!

Once you have uploaded you should see this screen. Here you have the option of moving the photos around to change their order. Just click and drag them around in the order you want. Another option is to delete photos you no longer want, just drag the photo to the right hand side under Deleted Items.

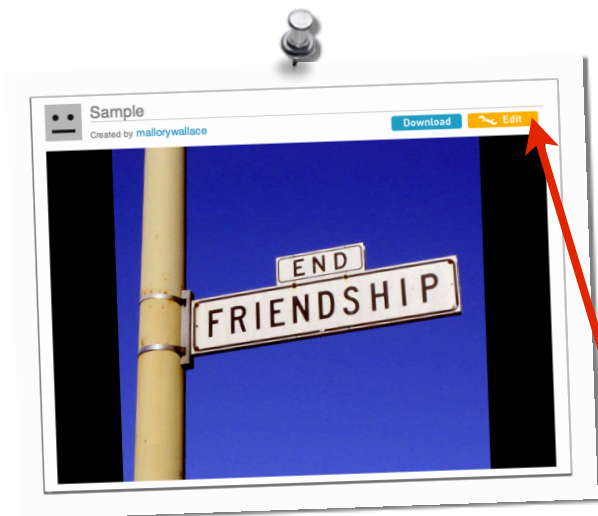

Make sure to click **Next** when you done!

Next, you will need to name your show and give it any description you wish. You also need to select the music you want for your slideshow. Don't worry you can always change your music if you don't like your original choice. Make sure to click on one before choosing finish.

Make sure to click finish or there will be no show!

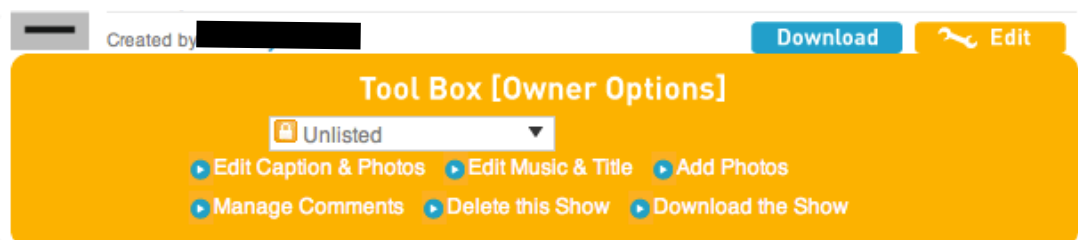

PhotoPeach Cont.

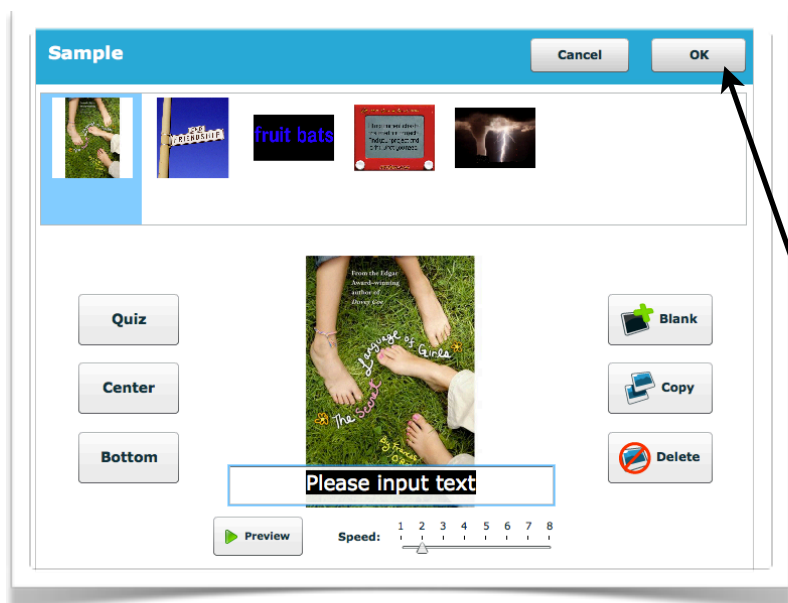

Congratulations you made a slideshow!

Want to add text or caption for your photos?
Does your show need to move faster?
Want different music?
Want to change the order of you photos?

Click the golden edit button!

Here are all the options you have under the edit tab! Click what is needed for your slideshow!

Under the Edit Caption & Photos option you can edit your captions for photos, rearrange them, delete or copy. This is most used edit option.

Just make sure to click ok when you are done to save all changes!

PhotoPeach Cont.

When your show is playing if you run your mouse across the screen these blue icons will appear. These icons give you several options for sharing your slideshow.

1. Facebook
2. Myspace
3. Twitter
4. Email
5. Embed in Blog or Wiki
6. Download the show
